

Comprehensive management and reporting of sexual misconduct on campuses.

ProtoCall is the first comprehensive, customizable platform designed specifically to guide colleges and universities in a step-by-step process from initial misconduct allegations through final resolution. ProtoCall enables schools to comply with federal reporting requirements and oversight enforcement.

Record

ProtoCall guides Title IX Coordinators through an intake process to accurately record each incident. Documents and images are uploaded directly into case files. Fields are updated to comply with best practices and regulatory revisions and can be customized for individual schools.

Respond

Incidents are referred for timely examination and assessment. Fields present lists of service referrals, accommodations and interim measures for survivors and the accused. Users are guided through an investigative process to ensure thorough, prompt and consistent resolution.

Report

ProtoCall enables Title IX Coordinators to aggregate data to comply with Title IX and Clery reporting requirements and to customize reporting to analyze trends and evaluate preventive measures.
